

MAILSTREET ARCHIVING AND COMPLIANCE

Today's regulatory and legal environment has created stringent email recordkeeping demands for many companies. In some instances, penalties for non-compliance can include significant fines or even criminal charges. These demands put increasing pressure on businesses to proactively address compliance and regulatory mandates.

MailStreet offers a full-featured email archiving and compliance solution that records and monitors all of your company's email communications. This solution, offered through our partnership with Global Relay™ Communications, provides a highly scalable platform, specifically engineered to assist your business with the stringent legal and regulatory compliance requirements for email recordkeeping.

FEATURES AND BENEFITS

MailStreet Archiving and Compliance helps small and medium-sized businesses (SMBs) address their unique business continuity, corporate governance and regulatory compliance demands. Features and benefits include:

Provides a Full-Featured Archiving Solution

- Seamlessly integrates with MailStreet Hosted Exchange Server capturing incoming, internal and outgoing email
- Defines and implements retention and expiration policies
- Archives email, Instant Messages (public or private), Bloomberg, Reuters, and BlackBerry® communications
- Enables rapid user access via any secure web browser at any time
- Imports and consolidates legacy and existing email, within the archive
- Provides secure end-to-end National Security Association (NSA) level encryption for highest protection of email records
- Allows users to search, view, and manage current or historical email instantly

Supports Regulatory and Corporate Compliance Mandates

- Provides tamperproof, dedicated WORM (write-once, read-many) back-up with write-verification to ensure message integrity and authenticity

- Enables Exchange users to meet stringent compliance and audit rules
- Provides unified online search, retrieval, monitoring and audit tools for all email and attachments
- Supports keyword and phrase violation detection
- Provides SAS 70 and CICA 5970 infrastructure certification

Proactively Protects Your Business from Unforeseen Disruptions and Disasters

- Provides secure, geographically isolated, offsite storage backup
- Acts as a permanent secondary email system if primary system is unavailable
- Allows users to have full access via the web to historical email with reply and forwarding functionality

Creates Authenticated Copies for Recordkeeping

- Enables high speed search and retrieval of all email contents and attachments via sophisticated indexing and search engine technology
- Eliminates Exchange mailbox size limitations by providing online access to an authentic copy of email even when deleted from Exchange
- Imports and unifies legacy email in archive
- Creates email copies that can be written to CD to DVD, if requested

“Our partnership seamlessly integrates the messaging services of two leading outsourced providers to deliver a practical business solution with complete data security and privacy.”

WARREN ROY, CEO, GLOBAL RELAY COMMUNICATIONS

MAILSTREET ARCHIVING AND COMPLIANCE

MAILSTREET DELIVERS COMPREHENSIVE SUPPORT FOR YOUR SPECIFIC ARCHIVING AND COMPLIANCE NEEDS

Most email systems were never intended to be repositories for high-volume, long-term message storage. Managing this data in a structured, auditable way has become a significant business challenge. MailStreet offers a complete archiving and compliance solution to help you implement your corporate and regulatory compliance policies.

In addition to our robust solution, we offer compliance and legal support through our partnership with Global Relay Communications. This team of experts can help you tailor your program to meet your specific needs.

Contact us today to learn why SMBs are turning to MailStreet to address their unique business continuity, corporate governance and regulatory compliance demands.

Supported Compliance Rules Include:

- Broker-Dealer SEC Rule 17a-4 and NASD Rules 3010 & 3110
- Investment Advisor Rules 204-2 & 206(4)-7 and Hedge Fund Rule 203(b)(3)-2
- Sarbanes-Oxley Act
- California SB1386
- HIPAA
- Graham-Leach-Bliley Act
- Privacy Legislation
- Business Continuity Plans, such as under NASD Rule 3510

MailStreet provides you with comprehensive solutions to address your messaging and collaboration needs. Rely on a leader. Rely on MailStreet.

About MailStreet

MailStreet, a division of Aptix, is a premiere provider of on-demand messaging and collaboration solutions specifically suited for the Small and Medium-sized Business (SMB) market. Its offerings, including Hosted Exchange, Hosted SharePoint, Mobile Messaging, and Archiving and Compliance, provide SMBs with a more affordable, reliable and secure alternative to purchasing and managing software applications in-house. MailStreet is a Microsoft Gold Certified Partner for Hosting and Application Services. For more information, visit www.MailStreet.com

“Fueled by Sarbanes-Oxley and related government mandates, archiving and secure data storage are two critical technology components needed by businesses to achieve end-to-end compliance. By offering such capabilities on a secure, hosted basis, MailStreet reduces implementation costs to SMBs while easing their data management burden.”
