Web Hosting Highlights

More and more small to medium businesses are using the power and reach of the Internet to grow their businesses and increase sales. MailStreet provides a comprehensive range of Website hosting services including Basic, Standard and Advanced Hosting packages. Designed for small and medium businesses, based on MailStreet's ten years of expertise providing Web services. Simple choose the package that best meets the needs of your business.

AWStats

AWStats is a powerful analytics tool that generates high quality advanced web server statistics graphically. Using AWStats you can identify many key metrics for your Website including

- Number of visits, and number of unique visitors,
- Visits duration and last visits,
- Days of week
- Domains/countries of hosts visitors
- Most viewed, entry and exit pages,
- Visits of robots
- Worms attacks
- Search engines, key phrases and keywords used to find your site

Plesk SiteBuilder

Easy-to-Use Web Interface: 5-Step point-and-click wizard that includes design and layout templates, and WYSIWYG editor.

Advanced Design Templates and Features: Hundreds of sophisticated templates (with color variants) included.

Designed for Differentiation: Select an assortment of "skins" to integrate with control panels and modify look-and-feel for private branding.

Open Architecture: Ability to modify default templates designs, add new templates, and create page sets for more advanced users.

Language Support: Available in the following languages: English, German, Japanese, Spanish, French, Chinese Simplified, Chinese Traditional and Russian.

Reliable and affordable Website Hosting for your business—no set-up fees or hidden costs. Key features include:

- Microsoft Hosting with a 99.9% Service Level Agreement (99.9% SLA)
- Live US-based customer support—phone or email—we are here if you need us.
- Easy-to-use Plesk SiteBuilder lets you create a professional Website by customizing hundreds of design options and editing pre-existing copy—just point and click. Advanced users can utilize sophisticated HTML design tools.
- No set-up fees, maintenance hassles or infrastructure expenses.
- AWStats Web Statistics helps you analyze the performance of your Website. This feature provides easy-to-read reports on how many people are visiting your site; most viewed Web pages; most effective keywords; which search engines are bringing you traffic; and much more.
- Trust an industry leader to host your website. MailStreet gives you reliability, security, support and experience.
